Sand € Single use. Lowest cost at <\$0.05/lb. Produces free silica: cause of silicosis, a lung disease.

Engraving Glass With Lasers or Sand Carving Sand carving is not done with a machine. It is done by hand. One way to combine laser engraving with sand blasting is to use the laser engraver to etch the outline of a design into the glass and then use sand carving to fill in the design, says Epilog's Sieber.
